FREE STATES IN FREE EUROPE!

EU has taken away the most important freedom rights of the memberstates:

1. The four basic liberal principles of free market (free movement of capital, goods, persons and services,) as priority over the values of the memberstates:

II/Article 26:

2. The internal market shall comprise an area without internal frontiers in which the free movement of goods, persons, services and capital is ensured in accordance with the provisions of the Treaties.

2. Exclusive authorities (competences) take away the economical independence of the memberstates:

II/Article 3:

1. The Union shall have exclusive competence in the following areas:
 - (a) customs union;
 - (b) the establishing of the competition rules necessary for the functioning of the internal market;
 - (c) monetary policy for the Member States whose currency is the euro;
 - (d) the conservation of marine biological resources under the common fisheries policy;
 - (e) common commercial policy.
2. The Union shall also have exclusive competence for the conclusion of an international agreement when its conclusion is provided for in a legislative act of the Union or is necessary to enable the Union to exercise its internal competence, or in so far as its conclusion may affect common rules or alter their scope.

3. The mutilated (truncated) subsidiarity rights deprive the settlements of memberstates of living with the local authorities:

I/Article 5:

3. Under the principle of subsidiarity, in areas which do not fall within its exclusive competence, the Union shall act only if and in so far as the objectives of the proposed action cannot be sufficiently achieved by the Member States, either at central level or at regional and local level, but can rather, by reason of the scale or effects of the proposed action, be better achieved at Union level.
The institutions of the Union shall apply the principle of subsidiarity as laid down in the Protocol on the application of the principles of subsidiarity and proportionality. National Parliaments ensure compliance with the principle of subsidiarity in accordance with the procedure set out in that Protocol.
